## ECONOMIC EPISODES IN CANADIAN HISTORY

Limited travel and substitute teacher bursaries available  
LIGHT BREAKFAST | LUNCH | LESSON PLANS | DVDs

The multi-perspective approach to historical scholarship requires viewing events, trends, and developments through a variety of analytical lenses. This brand new workshop introduces the economic way of thinking to inform social, political, and geographic perspectives.

This curriculum presents key economic principles that students can use to better understand the choices and resulting social outcomes that have shaped the development of Canada. Major historical events covered include the fur trade, collapse of the cod fisheries, and the Great Depression.

### Topics covered include:

trade | scarcity | inflation | opportunity cost |  
supply and demand | budgeting | monetary policy  
institutions | property rights
