Economic Principles

How to Book

To have your class participate, follow these steps:

1 Secure 65-75 students:

This is easier than you think! Reach out to other schools in your area and partner together for this opportunity.

2 Pick a date:

The more options you provide the better! Work with other teachers to determine at least three dates* between March 1 and June 23 that will best fit your schedule.

3 Email us and we'll do the rest:

The first group to provide 65-75 students, a location, and three dates will be selected for this limited offer. At no cost to your school, we will find a venue near you, bring in the instructors, arrange lunch and snacks for your students, and take care of all the other details for the day. All you have to do is show up with your students for a fun day of learning economic principles.

This is a unique experience for students to engage in a professional setting outside of the classroom while learning about economic principles using real-life examples.

Don't miss out on this exciting opportunity!

To book a travelling seminar, contact us by **February 10, 2017:**
